5 Years 11 Months Relevant Experience

11/2020 – 07/2022
Indore, India

Assistant System Engineer
Tata Consultancy Services

07/2022 – 08/2024
Gurugram, India

Professional 1 Software Engineer
Capgemini
***Researching, designing, implementing, and managing software programs . Testing and evaluating new programs . Identifying areas for modification in existing programs and subsequently developing these modifications*. SME specially for integrations.**

Accenture

08/2024 – Present
Gurugram, India

Packaged App Development Senior Analyst
Full-stack contributor with primary ownership of backend systems while also driving cross-functional areas of the project. Responsible for application development, database architecture, performance tuning, automation scripts, CI/CD integration, job scheduling, environment setup, and production reliability. Lead a 2-member team, guide technical decisions, coordinate with frontend, QA, and product teams, and ensure consistent delivery of stable, scalable features from design to deployment.

07/2026

Data Eng, Mgmt and Governance Specialist
Responsible for designing and optimizing data pipelines, backend systems, database integrations, and cloud-based solutions. Successfully delivered two projects and currently contributing to agentic AI framework development, focusing on intelligent automation, scalable architectures, and efficient data processing. Collaborate with cross-functional teams to deliver reliable, high-quality solutions aligned with business requirements.

Education

05/2016 – 04/2020
Kanpur, India

Bachelor of Technology
Pranveer Singh Institute of Technology
Computer Science

Skills

Knowledge of programming languages Java, scala and Python. Knowledge of Devops Docker and Kubernetes.

Application Deployment using EC2, Docker, Kubernetes, Redhat Openshift etc.

Java

Python

MySQL

Networking

Spring Batch

Airflow Jinja

Github Action
Github | Github Actions | Workflows

Application Development in Java Spring Boot Framework, worked with Servlets, Docker Containers.

Application Development

bigData

Object-oriented programming

Apache web server

SVN/GIT

Airflow DAG's

GCP
GCP services Like Bigtable, BigQuery, Composer, Dataproc etc.

Redis

Languages

- English
- Hindi

Awards

Completed the Google Certification(Cloud Digital Leader) with good percentage.
Google

Completed the Microsoft Certification(AZ-900 Fundamentals) with good percentage.
Microsoft

I have won two time silver medal and one time gold medal in football tournament in my three years of Engineering.

I Have won gold medal in zonal and silver medal in state level table tennis tournaments.

I have also won second prize in table tennis in college event(Footprint).

Exemplary Performance in JOB-A-THON 7.0 Hiring Contest by GeeksforGeeks.

Interests

- Love to play Video Games
- Loves to play Sports(Football, Table tennis, Badminton)

Certificates

AZ-900(Azure fundamentals)

Cloud Digital Leader(GCP)

Enterprise Agent Development
GCP

JOB-A-THON 7.0 Hiring Contest
Geeks for Geeks

Gemini Enterprise Deployment
GCP

Projects

Smart/Sketchpad Reportings
“Smart/Sketchpad Reporting is an end-to-end reporting pipeline built using ETL workflows and Spring Batch. It pulls and processes transactional data across multiple data stores — Cloud SQL, Bigtable, and Oracle — consolidating and transforming large datasets into customer-ready reports. The system handles high-volume workloads, enforces data accuracy, and delivers scheduled and on-demand reports with reliable performance.”

CODE
“CODE (Card Optimization and Decision Engine) is a Spring Boot service deployed on Kubernetes, built for high-throughput, low-latency customer transactions. It integrates with Google Cloud Bigtable to deliver real-time decisioning and card optimization logic, ensuring millisecond-level response times at scale. The system is designed for high availability, horizontal scalability, and seamless cloud-native operations.”

Slack Proxy Server
A proxy Server that integrates with my application to enable the inbound and outbound traffic through slack slash commands and my application.

Azure SAP Sizer
Optimizes Azure EC2 for SAP. Custom recommendations improve resource and cost efficiency. Demonstrates Java, Springboot, cloud.
